Scantrons

You will need to bring 4 scantrons to class before the first exam. The type of scantron is an 882-E or 882-ES:

The scantron forms must be clean, unbent and **BLANK**.

In return for turning these in, you will get a clean, unbent and blank scantron inside each of your four class exams.

Paper clip the scantrons to the form below.

**DO NOT STAPLE THE SCANTRONS.**

If you wish to not print this form, then be SURE you have all the information below on a piece of paper that is paper clipped to the 4 scantrons.
