Accessing MATLAB at Texas A&M University

As of January 16, 2023, the version of MATLAB running on Texas A&M Open Access accounts is 9.13.0.2126072 (Release 2022b). You can check the release you have by typing *ver* at the MATLAB prompt. MATLAB 9.13, Release 2022b, was released on September 15, 2022; the MathWorks company typically releases a new version each spring (Release a) and a new version each fall (Release b).

Students can obtain MATLAB free of charge through Texas A&M from the site

software.tamu.edu

One resource for students new to MATLAB is the document *MATLAB Basics*, available on the course web site

www.math.tamu.edu/~phoward/M647.html

Curious MATLAB fact. There is an Upazila (i.e., something like a county) in Bangladesh called Matlab. See, for example, *en.wikipedia.org/wiki/Matlab_Upazila*.
