

Front Material

Table of contents

FRONT MATERIAL.....	1
Table of contents	1
Preface	5
CHAPTER 0 ALGEBRA	7
0.1 Pretest	7
0.2 Grading Your Pretest.....	7
0.3 Understanding Your Results.....	7
<i>references.....</i>	7
CHAPTER 1 POLYNOMIALS AND MODELING	9
1.1 Linear Functions	9
Graphing Aspects.....	9
Applications	9
Cost, Revenue, Profit	9
Supply, Demand.....	9
1.2 Quadratic Functions	9
Graphing Aspects.....	9
Standard vs. Non-Standard Forms.....	9
Applications – max/min functions	9

2 TABLE OF CONTENTS

1.3 Cubic and Higher Polynomials.....	9
Basic Graphs/Properties.....	9
1.4 Modeling with Polynomials	9
Fitting Curves to Data.....	9
Picking the Best Model	9
<i>Sample Quiz</i>	9
<i>Chapter Quiz</i>	9
CHAPTER 2 EXPONENTIALS AND LOGARITHMS	11
2.1 Exponential Functions	11
2.2 Applications of Exponential Functions	11
2.3 Logarithmic Functions	11
2.4 Modeling	11
<i>Sample Quiz</i>	11
<i>Chapter Quiz</i>	11
CHAPTER 3 LIMITS AND CONTINUITY	13
3.1 Graphical Limits.....	13
Left/Right Hand Limits	13
Limits at a Point.....	13
Limits that Do Not Exist	13
Limits at Infinity.....	13
3.2 Algebraic Limits	13
Relation between Graphical and Algebraic Methods Using Tables	13
Limit Rules.....	13
Limits at Infinity.....	13
3.3 Continuity.....	13
Finding Discontinuities Given Graphs	13
Finding Discontinuities without Graphs	13
<i>Sample Quiz</i>	13
<i>Chapter Quiz</i>	13

CHAPTER 4 RATES OF CHANGE.....	15
4.1 Average Rate of Change	15
Graphical meaning – slope of secant line.....	15
Formulaic Approach	15
Applications	15
4.2 Instantaneous Rate of Change	15
Graphical Meaning – Slope of Tangent Line	15
Definition of Derivative.....	15
Applications	15
<i>Sample Quiz</i>	15
<i>Chapter Quiz</i>	15
CHAPTER 5 DERIVATIVES.....	17
5.1 Rules	17
5.2 Composition of Functions	17
5.3 Chain Rule.....	17
5.4 Elasticity	17
5.5 Higher Order Derivatives	17
<i>Sample Quiz</i>	17
<i>Chapter Quiz</i>	17
CHAPTER 6 CURVE SKETCHING	19
6.1 Describing the Behavior of a Graph.....	19
6.2 Drawing a Curve from Information.....	19
6.3 Sketching a Function	19
Function Information.....	19
First Derivative Information.....	19
Second Derivative Information	19
<i>Sample Quiz</i>	19
<i>Chapter Quiz</i>	19

CHAPTER 7 OPTIMIZATION	21
7.1 Finding Absolute Extrema.....	21
Closed interval problems	21
Open Interval problems	21
Half open (half closed) interval problems	21
7.2 Maximization Problems.....	21
7.3 Minimization Problems	21
<i>Sample Quiz</i>	21
<i>Chapter Quiz</i>	21
CHAPTER 8 INTEGRATION I	22
8.1 Antiderivatives	22
8.2 Approximating Area Under a Curve.....	22
<i>Sample Quiz</i>	22
<i>Chapter Quiz</i>	22
CHAPTER 9 INTEGRATION II	23
9.1 Definite Integrals and the Fundamental Theorem of Calculus	23
9.2 Area Between Two Curves	23
<i>Sample Quiz</i>	23
<i>Chapter Quiz</i>	23
CHAPTER 10 MULTI-VARIABLE APPLICATIONS.....	24
10.1 Multi-Variable Functions and Their Graphs	24
10.2 Level Curves and Contour Maps	24
10.3 Partial Derivatives.....	24
10.4 Finding Max/Min/Saddle Points	24
<i>Sample Quiz</i>	24
<i>Chapter Quiz</i>	24
<i>End Material</i>	25
Appendix A Trigonometric Functions.....	25

Definitions.....	25
Pythagorean Theorem.....	25
Angle Measures.....	25
Unit Circle.....	25
Identities	25
Graphs.....	25
Derivatives.....	25
Integrals.....	25
Appendix B Applets	25
Modeling Applet.....	25
Tangent/Secant Applet.....	25
Riemann Sum Applet.....	25
Anti-Derivative Applet.....	25
Plotting Applet	25
Sketching Applet.....	25
Limits Applet.....	25
Area Between Curves Applet	25
Contours Applet.....	25
Sample Quiz Answers	25
Chapter Quiz Answers.....	25
Index.....	25

Preface
