Obtaining a WebAssign Access Code
Obtaining the Access Code

For your math class, you will need to purchase a textbook and a WebAssign access code. You can obtain your access code by choosing one of options listed below.

- You buy a BRAND NEW textbook.
  - If you buy a brand new textbook from the bookstore, BE SURE IT IS BUNDLED WITH A WEBASSIGN ACCESS CODE. The difference in price between a book that is not bundled with a code and a book that is bundled with a code should be something close to $10.

- You buy a USED textbook
  - If you buy a used textbook, you’ll need to additionally purchase a WebAssign access code. This can be purchased in one of two ways.
    - Purchase online after you log into WebAssign.
    - Purchased in a bookstore.

- Go to iChapters – you can buy a new textbook bundled with the WebAssign access code directly from the publisher by going to http://tamumath.ichaptersbuy.com/ichapters/micro/?cluster_id=3123
