

DEPARTMENT OF MATHEMATICS GRADER APPLICATION

KEEP THIS PAGE FOR YOUR INFORMATION

Information about the grader positions:

Only applicants who have received an A or B in a math class will be considered to grade for that class or its equivalent.

The hiring process is done via e-mail. You **MUST** have a valid e-mail account in your name before you will be considered for a grader position.

*** Hiring will be done at the end of the first week and during the second week of the fall and spring semesters. Candidates being considered for a grader position will be contacted via e-mail during this time. If you are not contacted during the second week of classes, your application will be kept on file for the next semester.

Applications are accepted throughout the year. Due to changes in personal data, a new application should be submitted each fall semester. No application will be kept on file for longer than one year.

No grader positions are available during summer semesters.

Graders are hired to grade up to four classes each semester and each class may require up to 5 hours of work per week or in the case of the redesigned Math 141 up to 8 hours of work per week.

The pay rate is \$7.25 per hour for 100-level classes and \$8.10 per hour for courses that are 200-level and above.

After completion of this form, please send it to Blocker 601.
