Go to [www.webassign.net/login.html](http://www.webassign.net/login.html) and click on the red button that says “I have a Class Key”

Your teacher will give you your class key. You can also find a list of class keys at [www.math.tamu.edu/~epstein/eHW](http://www.math.tamu.edu/~epstein/eHW) under your class’s link.

After entering the key you should see a screen similar to the one below. If your class key did not enroll you in the correct class/section, click the “No, this is not my class” and double check you entered the correct code. If that is not the problem, contact [j-epstein@tamu.edu](mailto:j-epstein@tamu.edu) to report the problem.
If you already have a web assign account, click that button and Continue to enter your information. If you do not remember your login information, contact support@webassign.net or call (800) 955-8275.

If you do not have a web assign account, click the “I need to create a WebAssign account” radio button and then Continue. When you enter your student information you MUST

- Use your first and last name as listed on your student ID. No nicknames.
- Use your email address that you check the most often.
- Enter your UIN as your Student ID Number. This will be important in finding and verifying your records.

Make a note of your username and password NOW.

You should then see a screen like the one below. Click Log in now.
You will be sent to the main login page and you should enter your Username, Institution (tamu) and Password. Ignore the “Invalid Login!” until you have tried entering your new account information.

You will be sent to the screen below after successfully logging into WebAssign.

Your textbook does NOT come with an access code, so you will need to purchase an access code before your grace period expires. If you do not wish to do so at this time, click the “Continue without entering an access code”. On your homepage you will see your assignments.
