**Text:** *Calculus: Early Vectors*, Stewart

**Course Contents:** Partial Derivatives, Tangent Planes, Gradient, Max-Min, Lagrange Multipliers, Integration, Stokes Theorem, Green's Theorem, Divergence Theorem

**Office Hours:** Tuesday & Thursday 2:00 - 5:00 pm  
Other times by appointment, or just wander in and hope I'm there.

**Exams:** June 19  
July 10  
July 31

**Quizzes:** Are given during the class and are unannounced. I drop one quiz. If you know you are going to miss a day of class and you tell me in advance (via e-mail) then I will give you a makeup quiz if you take it within two days.

**Homework:** Homework will be assigned but not graded, students will be responsible for working problems. I would suggest you work them all. Nightly. Every Night.

**Final Exam:** The final exam counts as 200 pts. The final will be given on August 10, Monday.

**Policies:** Policies pertaining to absences, scholastic dishonesty, and final exams are identical to TAMU regulations. Students with an official excused absence are permitted to make up work only for the dates of the absence. All other assigned work, even that assigned on the excused date is due as assigned.

**Homepage:** I keep an updated list of homework assigned and other stuff for the class at my homepage //www.math.tamu.edu/~gklein/.

**Grading:** The grading scale that follows is not set in stone. These are just upper limits for the requisite grade.

|            |         |   |       |
|------------|---------|---|-------|
| 3 exams    | 100 ea  | A | 90%   |
| Quizzes    | 10 ea   | B | 80%   |
|            |         | C | 70%   |
| Final Exam | 200 pts | D | 60%   |
| Total      | Varies  | F | < 60% |
