

Math 172 Exam 1 Description

- The Exam is scheduled as Monday, February 22 and it will be given during the regular class time.
- The exam covers sections 6.5-6.6, 7.1-7.5, 8.1-8.3.
- You do not need a scantron for this exam.
- Things to bring to the test: pencil, eraser and your student identification card.
- It is **advised** that you
 - read over the lecture notes (read also Key Points List.)
 - work the quizzes;
 - for topics you are struggling with, rework the associated homework problems and problems we did in class;
 - For extra practice do Exam 1 Review. *Note that you should also demonstrate a conceptual understanding of material and that you have learned the appropriate definitions and theorems.*
