

Student Consent Form
(For use of writing assignments completed for class.)

The professor of this course is participating in a project, *Writing for Assessment and Learning in the Natural and Mathematical Sciences (WALS)*. The goal of the project is to better understand how students learn mathematics and science and to use this understanding to improve teaching and course design. The tool that is being used for this project is Calibrated Peer Review. One of the project's ultimate goals is to improve student learning, and we cannot accomplish this goal without student input. Your professor may wish to select samples of student work to share with other faculty members, either in person or in a published journal article, as an illustration of how much and how deeply students are learning.

Your Name (please print): _____

Date: _____

Phone Number: (____) _____

E-mail Address: _____

Course Title: _____

Professor: _____

By signing below you give your permission that work you produce for this course may be used with the restrictions and for the purposes indicated above. You understand that your grade is **NOT** connected in any way with your agreement to have your work shared, and that your anonymity will be maintained unless you designate otherwise. Finally, you understand that you are *free to withdraw consent at any time, now or in the future, without being penalized.*

Signature: _____

If you have questions or concerns, please discuss them with your professor and/or the WALS project principal investigator.
