MATH 151
Sections 801-803, 807-809, 813-815
Engineering Math I

Fall 2007

Instructor: Amy Austin
Office: 630B Blocker 862-4189
e-mail address: austin@math.tamu.edu
Homepage Address: http://www.math.tamu.edu/~amy.austin/
Office hours: MW: 3-5 pm or by appointment.

Teaching Assistant:
- Sections 801-803: Indranil SenGupta; sengupta@math.tamu.edu
- Sections 807-809: Svetlana Poznanovik; spoznan@math.tamu.edu
- Sections 813-815: Travis Thompson; thompson@math.tamu.edu

Content: This course will cover vectors in two dimensions, differentiation and integration of functions of one variable, and applications. The course meets twice per week in lecture (TR) and twice per week in recitation (MW). One of your recitation meetings is designed to discuss questions over homework or lecture and weekly quizzes will be administered here. The other recitation meets in the computer laboratory where the computer package Matlab will be introduced. If time permits, I will administer quizzes during lecture. These quizzes will not be announced in advance, thus it is important you keep up with all assignments and pay attention in lecture.

Common Exams: Engineering Calculus I and II here at A&M use Common Exams in order to establish consistency among sections. These common exams are administered in the evening (schedule attached). If you have a class conflict with these exams, you must provide documentation and arrangements will be made for you.

Academic Integrity Statement: "An Aggie does not lie, cheat, or steal or tolerate those who do". I further refer the student to the Honor Council Rules and Procedures on the web at http://www.tamu.edu/aggiehonor.

Students with Disabilities: The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you have a disability requiring an accommodation, please contact the Department of Student Life, Services for Students with Disabilities, in Room 126 of the Koldus Building or call 845-1637.
Grades: Your grade will be determined by 3 exams, a comprehensive final, and the lab grade as follows:

Exam I: 15%  
Exam II: 15%  
Exam III: 20%  
Final Exam: 25%  

The final exam schedule depends on your section number:
- Sections 801-803: W Dec 12, 8-10 am
- Sections 807-809: W Dec 12, 1-3 pm
- Sections 813-815: F Dec 7, 3-5 pm

Matlab: 10%  
Quizzes/iLrn online homework: 15%

Make-up policy: No make-ups will be given without written evidence of an official University excused absence. (See University Student Rules.) According to Section 7.3 of the University Student Rules, for an absence to be considered excused, the student must notify his or her instructor in writing (acknowledged e-mail message is acceptable) prior to the date of absence if such notification is feasible. In cases where advance notification is not feasible, the student must provide notification by the end of the second working day after the absence. This notification should include an explanation of why notice could not be sent prior to the class. "If no such notice is given, the rights to a make-up are forfeited. In addition (and also in accordance with University Student Rules), a written excuse must be presented upon return to class. Specifically, in the case of illness or injury, students are required to obtain a confirmation note from a health care professional affirming date and time of a medical office visit regarding the illness or injury and confirming the need of absence before a make-up will be given.

Sources of help: Use it!

1. Office Hours: My office hours will be Monday and Wednesday afternoon, 3-5. If you cannot attend my office hours, send me an e-mail with your available times and we will schedule an appointment.

2. Week in Review: Each week, I will conduct a Week in Review, time and place TBA. Students are highly encouraged to take full advantage of this extra help. Note that success on common exams requires LOTS of practice. This is one resource for you to obtain extra practice in order to master the material.
   See http://www.math.tamu.edu/~amy.austin/livewirmath151.html for more information.

5. Hire a private tutor: For a list of tutors, go to BLOC 602 and inquire within.
