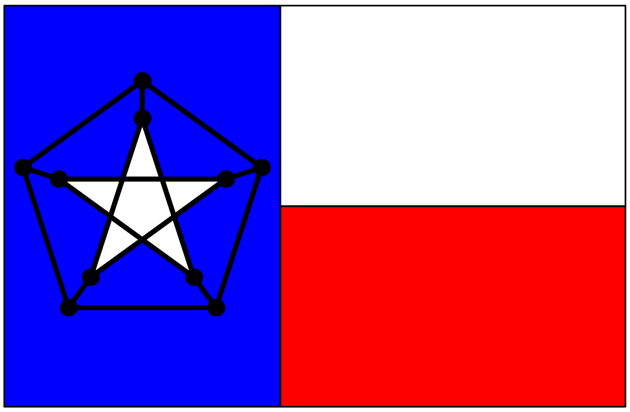
CombinaTexas 2003



April 5–6, 2003
Southwest Texas State University

The 4th annual *CombinaTexas Conference* will be held at Southwest Texas State University, starting early morning on Saturday April 5th and continuing through mid-day Sunday April 6th. The conference topics will range within a variety of areas within Combinatorics with a special focus on *Graph Theory and Its Applications*.

The following scholars will give plenary talks.

***Jay Bagga* (Ball State University)**
***Nathaniel Dean* (Rice University)**
***Frank Harary* (New Mexico State University)**
***Ewa Kubicka* (University of Louisville)**
***Melvyn Nathanson* (City University of New York)**
***Van Vu* (University of California at San Diego)**
***Herbert Wilf* (University of Pennsylvania)**

There will be sessions of contributed talks and poster exhibitions, for which we welcome submissions. The deadline for submitting a title and abstract for a poster or a contributed talk is March 15, 2003. Contributions should be sent via on-line registration at the conference homepage or via email to any member of the organizing committee.

Everyone is welcome to participate. There are no registration fees, but a complete registration form is necessary.

For more information, see the conference homepage at
